Sir,

Subject Metering of water connection to cricket Pavilion

****

I have the honour to state that the water connection to Tennis Courts in the City are metered on non-domestic basis on the ground that the water is not used for any domestic purpose, but for a purpose for which fees are being levied by the institution concerned These are charged at the rate of Re 1/- per thousand gallons The question has now arisen whether the University Cricket Pavilion should not similarly be metered on non-domestic basis on the same analogy The meter to this appears to have been removed under the impression that the University is a Government Department, and the Cricket Pavilion is attached to the University

I hope instructions meter this Cricket Pavilion could be there-fore in orde
